MATERIALS

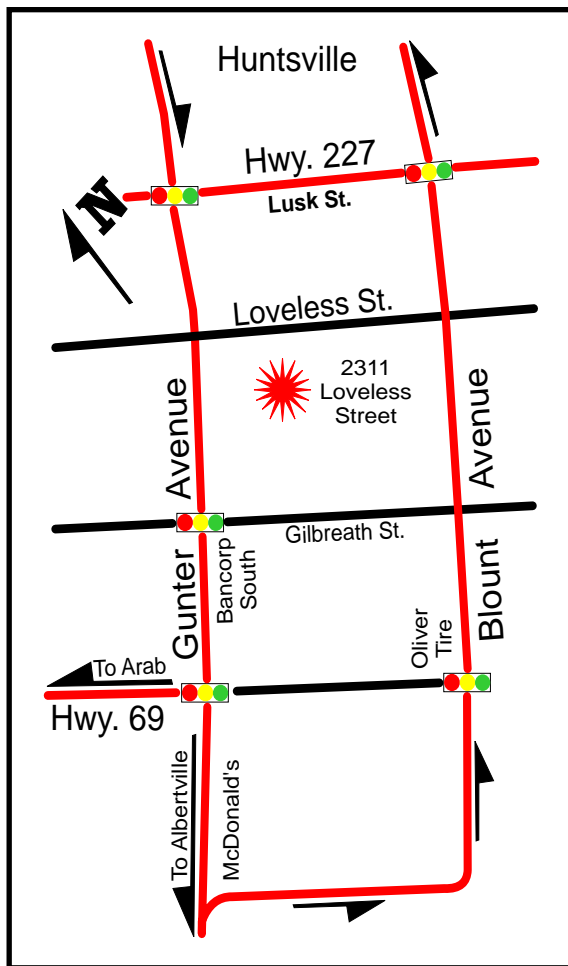

Acrylic: Tags and signs are available in acrylic thicknesses of 1/32", 1/16", 1/8" and can be bent to form self-standing signs. Smooth and textured surfaces are available.

Polyester: Adhesive-backed, .004" thick, polyester labels.

Anodized Aluminum: Certain tag shapes are available in various colors of anodized aluminum. Ask about custom shapes!

We also have materials that can stand up to more demanding environments.
